

Website Disclaimer

Exempt market investments are not guaranteed and are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer. Investment products sold in the exempt market are considered high risk because:

1. They are not covered by deposit or investor protection insurance;
2. Regulators do not review the offering memorandum for completeness;
3. Issuers of exempt products are not subject to the same ongoing disclosure obligations as public issuers;
4. Many exempt products are not as liquid as publicly-traded securities;
5. Exempt products are often subject to a greater degree of “key person” risk than more widely held securities;
6. Investors purchase pursuant to an exemption because the regulators feel they do not need many of the usual protections accorded to investors in publicly-traded securities;
7. There may be risks other than those listed above related to the individual product being purchased and investors are expected by Raintree Financial Solutions to make all necessary inquiries of their Dealing Representative.

There can be no assurances that the investment will be able to maintain its net acquisition value or to produce projected income. Investment values change frequently and past performance may not be repeated.

Using borrowed money to finance the purchase of securities involves greater risk than a purchase using cash resources only. If you borrow money to purchase securities, your responsibility to repay the loan and pay interest as required by its terms remains the same if the value of the securities purchased declines.
